

Prevent problems with mites, lice and fleas. Always give your animals a preventive treatment. Finecto<sup>+Oral</sup> is a 100% natural supplementary animal feed based on aromatics for poultry, birds and pigeons. Does not contain any poison or other chemicals. Mixing Finecto<sup>+Oral</sup> through the feed ensures that your animals become unattractive to ectoparasites.

#### Instructions:

**Preventive:** Add 1 measuring spoon of Finecto<sup>+Oral</sup> to 1 kilo of feed. Mix well until the mixture is homogeneous. Feed the mixture to your animals during 7 – 14 days.

**Curative:** Add 2 measuring spoons of Finecto<sup>+Oral</sup> to 1 kilo of feed during 14 days. Treat the environment with Finecto<sup>+Protect</sup> after 4 days.

#### Contents:

300 grams, sufficient for over 20 Kg. of feed.
